EXPERIMENT 8

NAME : NETHRA CHANDRAGANDHI T ROLL NO: 240701357

AIM:

The aim is to create storyboards representing the user flow for a mobile E-commerce app using Balsamiq.

PROCEDURE:

1. Tool Used: Balsamiq Wireframes (https://balsamiq.com)

2. I created a new project and added mobile screens to simulate the user's shopping experience from start to finish.

3. Each screen represents a key step in the product browsing and purchase process.

4. UI components like buttons, text fields, dropdowns, images, and icons were selected from Balsamiq's built-in library.

5. All wireframes were designed to be simple, clean, and focused on user interaction and flow.

USER FLOW:

1. Homepage – Users can browse featured products, search for items, and navigate to different categories.

2. Categories Screen – Displays various product categories such as Electronics, Fashion, Home, etc.

3. Product List Screen – Shows a list of products within a selected category, with image, name, price, and "Add to Cart" button.

4. Product Details Screen – Detailed view of a single product with description, images, price, and "Add to Cart" button.

5. Checkout Screen – Shows the cart with total price, delivery address input, and a button to proceed.

6. Payment Confirmation Screen – Displays payment options and a confirmation message after successful payment.

1. HOMEPAGE:

• Components:

o Search bar o Banner/Carousel for offers

o Navigation buttons to categories

o Featured products with thumbnail, price, and "Add to Cart"

• **Purpose:**

Starting point for exploring and engaging with the app's product offerings

2. CATEGORIES SCREEN:

• **Components**:

o Grid or list view of categories (e.g., Electronics, Fashion, Groceries)

o Icons/images representing each category

• **Purpose**:

Help users easily filter products based on interest.

3. PRODUCT LIST SCREEN:

• **Components:**

o Scrollable list of products o Product image, name, price

o "Add to Cart" button for each product

• **Purpose**:

View and select products within a specific category.

4. PRODUCT DETAILS SCREEN:

• **Components:**

o Product image gallery

o Title, price, ratings

o Description and specifications

o "Add to Cart" button

• **Purpose:**

Provide full information about a product to aid in purchase decisions.

5. CHECKOUT SCREEN:

• **Components:**

o List of items in cart with price breakdown

o List of items in cart with price breakdown

o Input fields for delivery address

o "Proceed to Payment" button

• **Purpose:**

Let users review their order and enter delivery details.

6. PAYMENT CONFIRMATION SCREEN:

• **Components:**

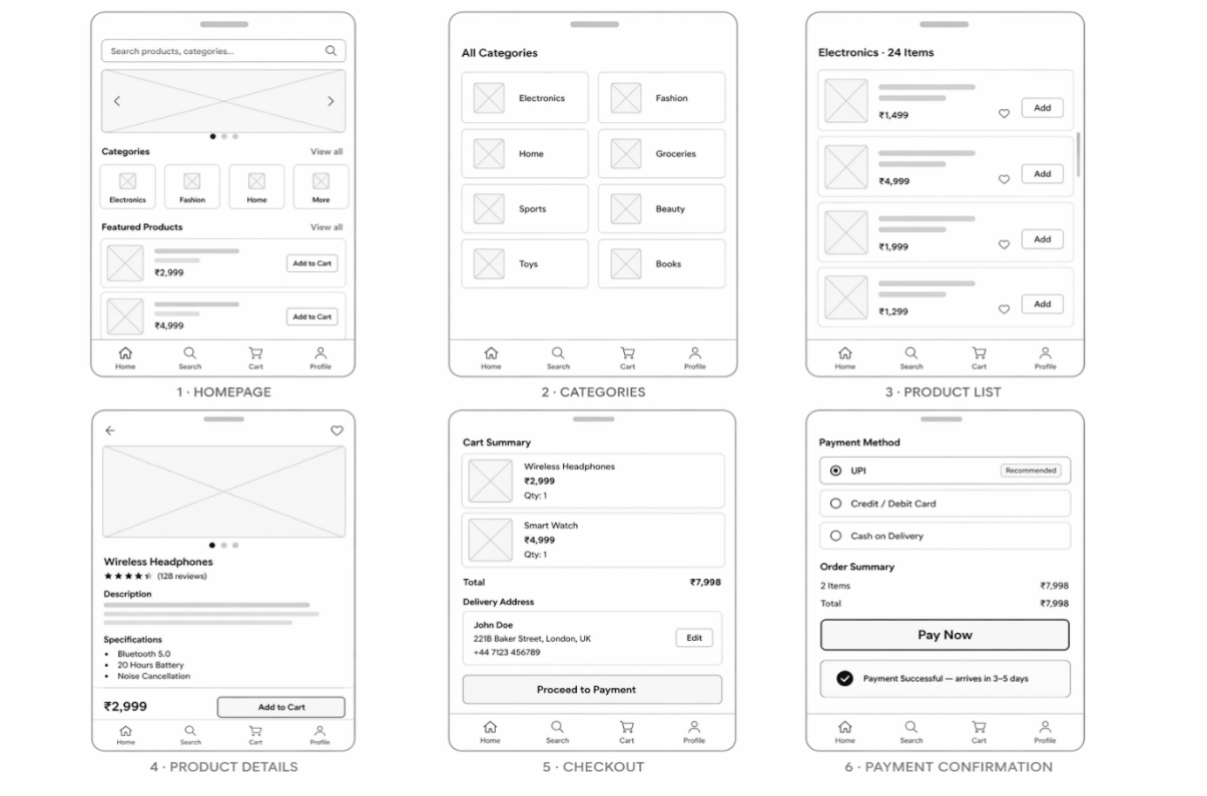
o Radio buttons for payment methods (UPI, Credit Card, COD)

o Order summary and total cost

o “Pay Now” or “Confirm Payment” button

o Confirmation message (e.g., “Payment Successful! Your order will arrive in 3- 5 days.”)

• **Purpose:**

Final confirmation step that assures the user the transaction is complete.


WIREFRAMES:
